

Welcome to iClicker!

Devices allowed in class

You are required to bring a device to participate in my class sessions.

I will be allowing the use of the iClicker student app (on a smartphone, tablet, or laptop).

Check your email!

I have set up an iClicker integration with our **Canvas** course, which pulls your names directly into my iClicker roster.

If you have an existing iClicker account that uses an **official university email address and/or Student ID**, you will automatically be added to our iClicker course. Check your courses list in the iClicker app to make sure!

If the iClicker system does not find a matching iClicker student account, you will receive an email from iClicker Support with instructions to create a new account or update your existing account's profile.

Please note: this email may appear in your Spam or Junk folders.

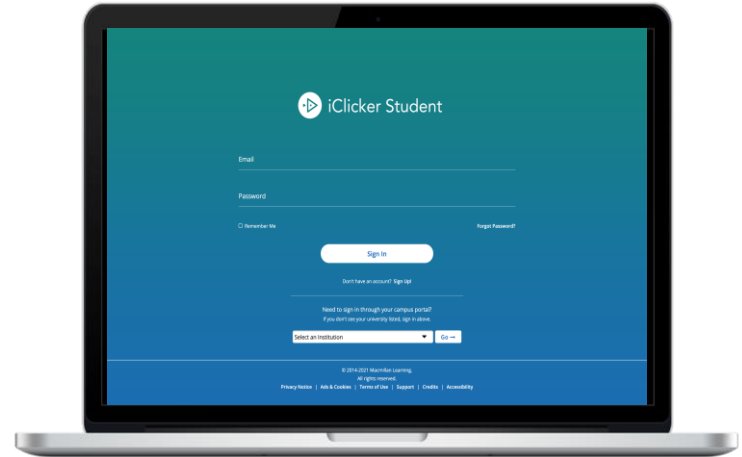

Create an iClicker account

Select **Next**.

A screenshot of the iClicker 'Profile' page. The page has a blue header with a hamburger menu icon on the left and the word 'Profile' on the right. Below the header, there are several input fields for user information: 'Institution' (Macmillan Learning), 'First Name' (Albert), 'Last Name' (Einstein), 'Email' (albert.einstein@state.edu), and 'Student ID' (albert.einstein). The 'Email' and 'Student ID' fields are highlighted with a red rectangular border. Below these fields are two more options: 'Change Password' and 'Register Remotes', each with a right-pointing arrow. At the bottom right of the page is a blue button labeled 'Save Profile'.
