

How to Access Pearson Revel

1. Click on “Pearson Revel” Link in your Canvas course.

2. Select **“Open Revel”**.
3. Enter your **Username** and **Password**. Otherwise, select **Create an Account**. **Note: VERY IMPORTANT!** If you’re also using a Pearson MyLab or Mastering product for another course in the same semester, register for the MyLab and Mastering product first to use the same username and password for Revel.
4. When your accounts are linked, select the access option below:
 - **Redeem the access code purchased from the bookstore.**

Agree to the User Agreement, by clicking “I Agree” at the bottom of the page.

5. **Enter the access code** provided by UF when you opted into the course fee, or if you purchased an access code at the University of Florida Bookstore. Click “Next”.

The screenshot shows the 'Steps to Register' process on the Pearson website. The 'Product Selection' step is active, indicated by a yellow circle. Below the title, there's a section for 'Enrollment Options' with a blue header. A message states: 'You can access your course using an access code, or you can buy online.' Under 'Access Code', there's a prompt '* Enter Your Access Code' with a yellow highlight. Below this is a form with six input boxes separated by plus signs. A link says 'Switch to a single box for pasting your access code'. To the right, an 'Example' box shows the code 'SIMPLE-FRILL-TONLE-WEIRS-CHOIR-FLEES'. At the bottom are 'Cancel' and 'Next' buttons. The footer includes copyright information and links for 'Customer Technical Support', 'Privacy Policy', and 'License Agreement'.

Once you have entered your access code, you will receive the confirmation that you have successfully subscribed to your MyLab.

6. Click **Return to Course**.

*****NOTE:** If you are having trouble signing into your Pearson account, it may be that a previous account was in a different system. You can always create a new username that can still be tied to the same email address. If you create a new username and get a popup saying “You may already have an account” just close the popup and continue to register with the new username.

At this point you may begin work in your course. **Please note**, if you encounter a blank screen when attempting to open your Revel course, you may need to allow Pop-ups from the Revel site if your browser isn’t already set to do so.

If you are having technical difficulties with the Pearson Revel products, contact Pearson technical support at <https://support.pearson.com/getsupport/s/contactsupport>
